

LOGISTICAL PROBLEMS IN AN INDUSTRIAL ENVIRONMENT

Cody Holman

INTRO/BIO

CET Major
SCA Treasurer
Project Engineer for
Crooker Construction
Mainer
Bowdoin Maine

COMMON PROBLEMS

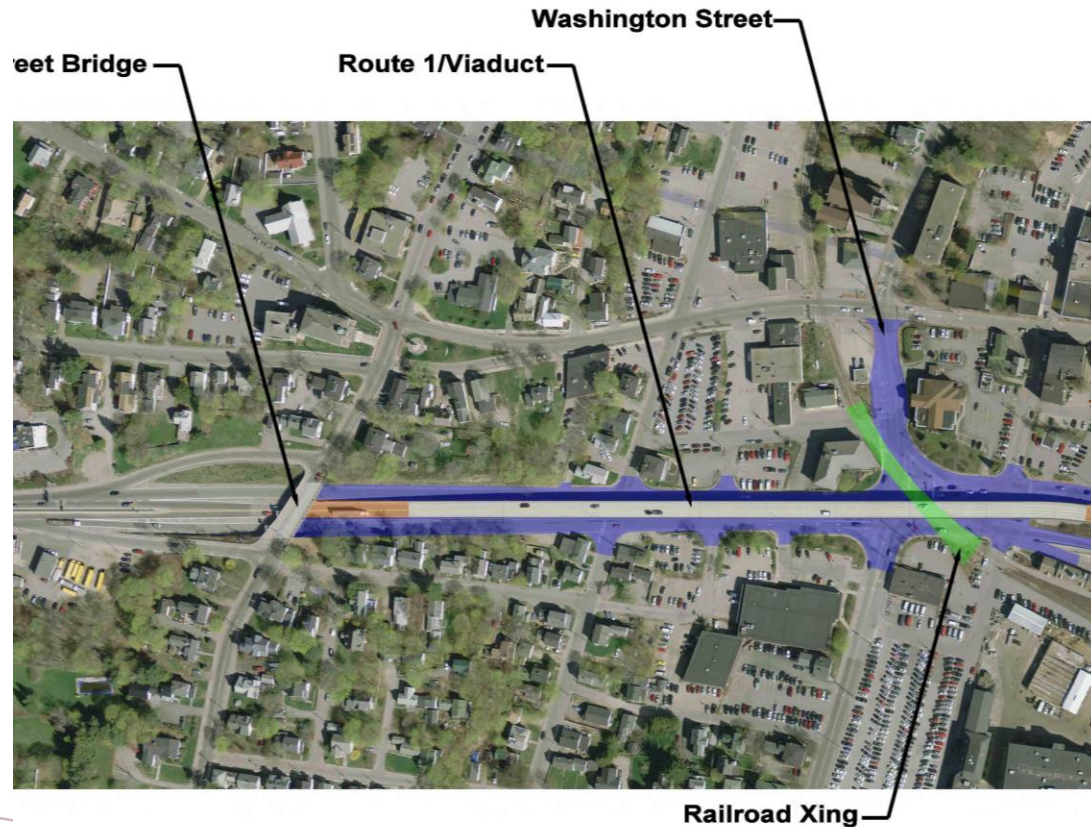

Interpersonal Relationships

Traffic Control

Adjusting Methods

RAILROAD LOGISTICS

- Distance from tracks
- Keeping materials off tracks
- Watching for emergencies
- Twice a day most days

TRAFFIC CONTROL

Traffic Paddle

Constricted Parking Design

Lane Closure

Street Signs

TRUCKING LOGISTICS

Waste Management in Norridgewock

Efficient loading methods

2 trucks assigned to crew

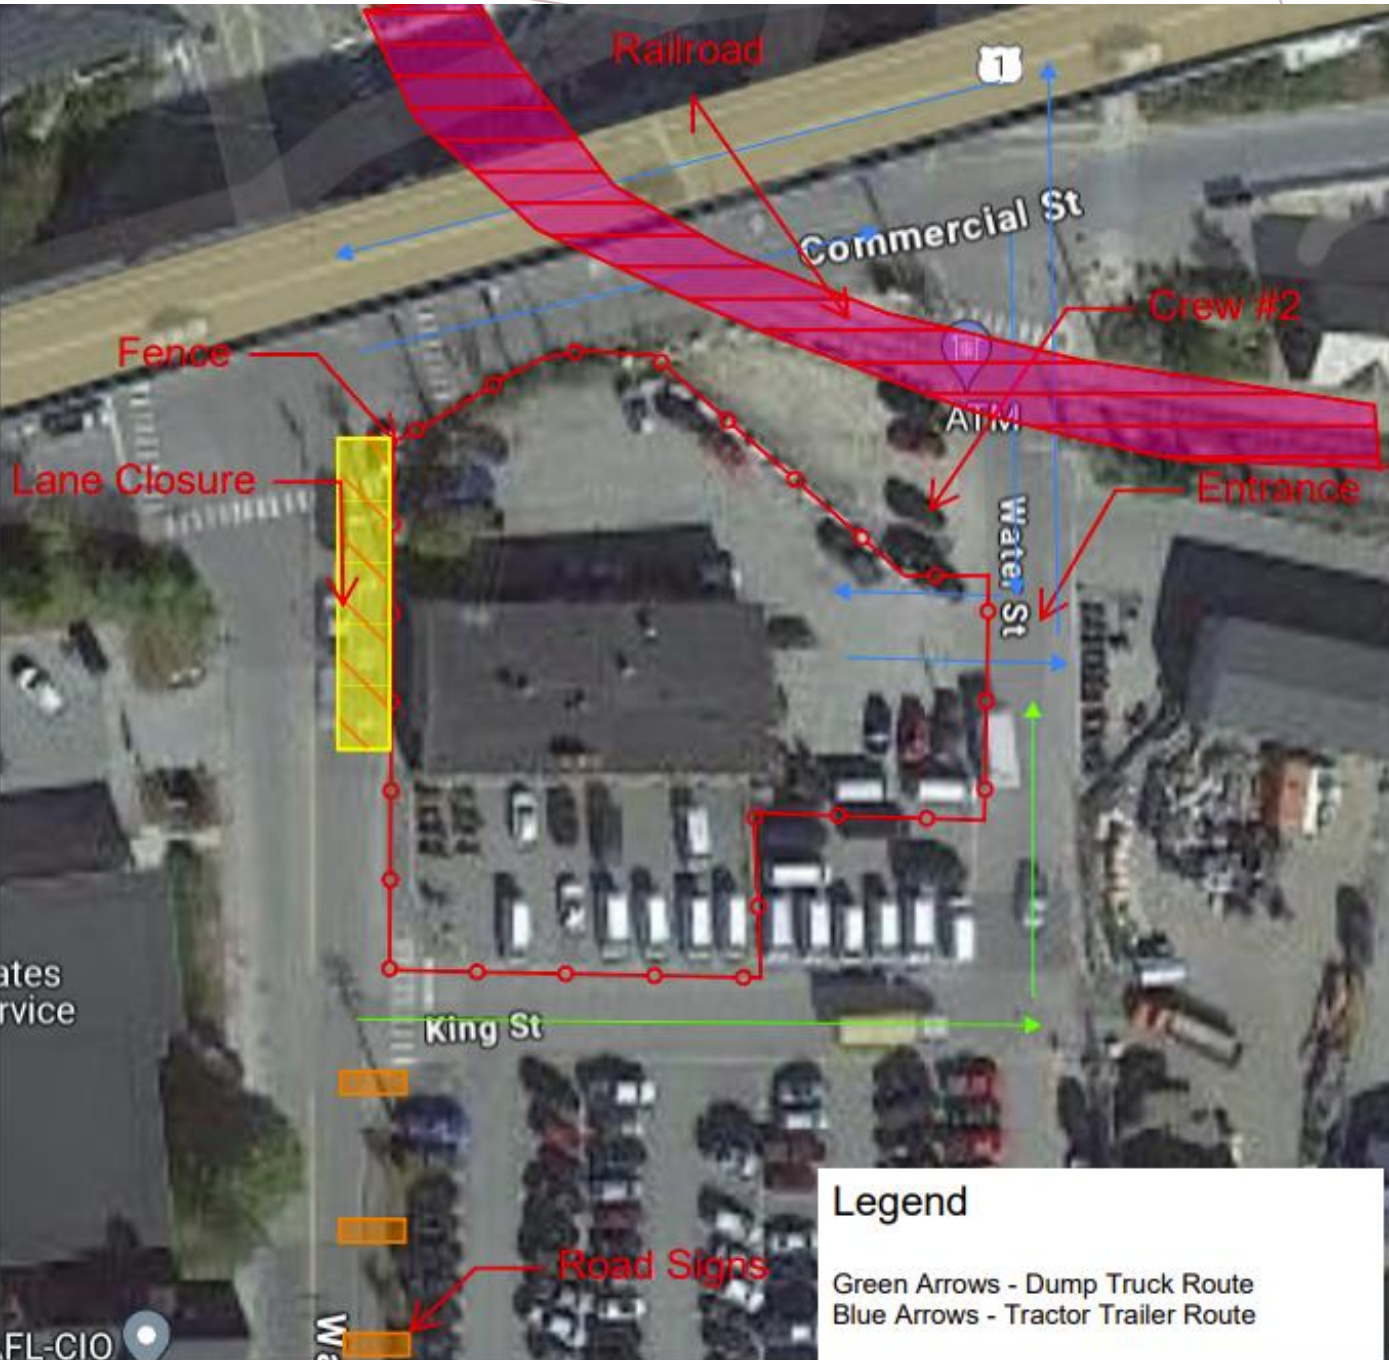

SITE LOGISTICS

Second Crew

Pipe run

Moving Entrance

TRENDS FOR THE FUTURE

EMPLOYEE SHORTAGE

- Less interest in construction
- Less laborers
- Safety concerns
- Efficiency concerns

INFLATION

- Huge impact on United States in last 3 years
- Integrity and budget concerns.

TECHNOLOGY

- Future place in construction
- Efficiency
- Buffer period then take-off
